## Skills

- Python | JavaScript | Django | Django Rest Framework | React.js | AJAX | JQuery | Flask | CSS |
- Bootstrap | HTML | Celery | Redis | Rabbit MQ | Microservices | CI/CD | PyTest | Unittest | Jira |
- Git | Github | Bitbucket | Version Control | MySQL | SQLite3 | PostgreSQL | Ngrok | PySide2 | PyQt5 |
- React Hooks | Wordpress | Pandas | Numpy | Matplotlib | Ionic 5 | Cloud Computing | SCRUM Certified

## Experience

- |  |                       |                       |                          |
|--|-----------------------|-----------------------|--------------------------|
| <b>Backend Engineer</b>  | <b>HNDWOK</b>         | <b>Abuja, Nigeria</b> | <b>12/2022 - Current</b> |
| <ul style="list-style-type: none"><li>• Lead the design and development of an E-Naira contribution wallet driving over 2 Million naira of revenue to the company using the latest technologies of Python, Django, Celery and Redis.</li><li>• Contributed to the development of the company's major software product connecting artisans to thousands of jobs within Nigeria.</li><li>• Enriched system metrics by introducing adequate unit and integration tests with PyTest thereby reducing bug reports and system failures by 13%.</li></ul>  |                       |                       |                          |
| <b>Fullstack Engineer</b>  | <b>Dro Health</b>     | <b>Lagos, Nigeria</b> | <b>06/2022 - 12/2022</b> |
| <ul style="list-style-type: none"><li>• Designed and implemented scalable APIs and background workers for managing and maintaining payment integrations using Python Django Rest Framework, PostgreSQL and celery.</li><li>• Optimized and automated notification logic for the Core team improving communication between doctors, patients and the system.</li><li>• Integrated multiple third-party systems within the company's product including Monnify, Paystack, Teams, Slack and ClickUp increasing revenue by 3%.</li><li>• Implemented custom Doctor Request feature letting users get access to available and unavailable doctors irrespective of needed specialty ensuring a 20% increase in bookings.</li></ul> |                       |                       |                          |
| <b>Fullstack Engineer</b>  | <b>Decagon</b>        | <b>Benin, Nigeria</b> | <b>01/2022 - 12/2022</b> |
| <ul style="list-style-type: none"><li>• Managed a 5-member cross-functional (product, backend, frontend) team that developed a financial solution for a recycle-pay project paying users to recycle used items leading to a 13% decrease in litters and garbage within the state using React JS and Django Rest Framework.</li><li>• Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews and unit testing.</li></ul>   |                       |                       |                          |
| <b>Mid - Level Fullstack Engineer &amp; Tutor</b>  | <b>Digital Dreams</b> | <b>Enugu, Nigeria</b> | <b>01/2019 - 12/2021</b> |
| <ul style="list-style-type: none"><li>• Led the development of several products from identifying system requirements and partner dependencies to software implementation, engineering, testing and configuring metrics, landing pages and dashboards.</li><li>• Led 200+ students to explore full-stack web development under different code stacks like Python, Flask, Django, PHP, Javascript, JQuery etc.</li><li>• Guided 100+ Software Engineering students in python to perform unit testing &amp; continuous integration, ensuring a 20% raise in quality standard code.</li></ul>  |                       |                       |                          |
| <b>Junior Frontend Engineer (Intern)</b>   | <b>MOUUA</b>          | <b>Abia, Nigeria</b>  | <b>09/2015 - 10/2018</b> |
| <ul style="list-style-type: none"><li>• Designed user interfaces for web and mobile solutions, journey maps, storyboards, mockups, and conceptual models, improving UI aesthetics.</li><li>• Deployed responsive websites using HTML, CSS and JQuery and JavaScript.</li><li>• Leveraged Agile methodology to constantly collaborate and work in iterating designs from insights and user feedback alongside building online and E-commerce solutions with WordPress and JavaScript.</li></ul>   |                       |                       |                          |

## Education

- |  |                          |                       |                          |
|--|--------------------------|-----------------------|--------------------------|
| <b>Diploma in Fullstack Programming</b>  | <b>Decagon Institute</b> | <b>Benin, Nigeria</b> | <b>01/2022 - 12/2022</b> |
| <ul style="list-style-type: none"><li>• Major in Computer Science (Michael Okpara University, Umudike)</li></ul> |                          |                       |                          |
| <b>Bachelor of Science</b>   | <b>MOUUA</b>             | <b>Abia, Nigeria</b>  | <b>09/2013 - 11/2017</b> |
| <ul style="list-style-type: none"><li>• Major in Computer Science (Michael Okpara University, Umudike)</li></ul> |                          |                       |                          |

## Mentorship

- Web Development Tutor: Programming, Algorithms, Fullstack Development, Data Science, Ionic, Wordpress, Professional Portfolio (01/2019)
- Coding and Frontend Boot Camp mentor for SIWES (Enugu) (03/2021)

## Projects

- [Github Link: https://github.com/kramstyles](https://github.com/kramstyles)
- [Temporary Portfolio](#)

## Others

- Best Python Graduating Student (Decagon Squad 10)
- Overall Second Best Graduating student in Decagon Squad 10
